

Greetings from Adseva Team!

AdSeva is the first of its kind mobile marketing platform for India. AdSeva enables advertisers to run highly targeted campaigns on mobile phones.

We have 30,00,000 + profiled data (For details Please Visit www.datanectar.com) across the country. We can undertake this promotion campaign and bring you the desired results. (Also visit www.smsintegra.com)

Mobile marketing for any event is a much more cost-effective, targeted medium, and when combined with your traditional marketing mix, it can add considerable revenue.

Why Mobile marketing:-

You already reach your customers through the conventional channels—television, radio, print, billboards, direct mail. Now it's time to extend your reach to the mobile market through ADseva.com.

ADseva.com **targets the one medium consumers can't live without**—their cell phones. With a cell phone in the pocket or purse of almost every consumer, you can reach more potential customers in every age set.

Million people already access news and information almost every day via their mobile device. Consumers are ready for your content. As the leading provider of targeted mobile marketing campaigns, we can help you connect to those consumers.

Mobile offers you what other mediums can't. With mobile, you have instant, real-time, dynamic interaction with your audience. Your customers won't have to remember your call to action they saw in one place and then take action somewhere else—with mobile, the call to action and the response occur on the same device.

We have serviced many big and small corporates across a wide range of industries. Our client base is ever increasing as our associations have helped businesses grow. Also mutual trust and respect are have been an integral part of any Adseva's engagements.
